

Russell Dudek

MISSION-CRITICAL OPERATIONS LEADER | RELIABILITY, TECHNICAL SYSTEMS & SCALE

Pittsburgh, Pennsylvania | 412.287.8640 | russelldudek@gmail.com | linkedin.com/in/russelldudek | https://russelldudek.github.io/serverfarm/

EXECUTIVE PROFILE

Operator-technologist who makes complex work visible, connects technical and business teams, and builds operating mechanisms that turn high-consequence work into safer, more reliable, measurable outcomes. Brings 24/7 site leadership, high-reliability engineering and manufacturing, regulated operations, quality systems, customer accountability, vendor coordination, telemetry and continuous-improvement discipline.

SELECTED EXPERIENCE

Vape-Jet2025-Present

Director of Operations

- Leads AI-first operating transformation across production, purchasing, quality, customer success, support, engineering issue flow, ERP/Odoo, Jira, HubSpot, Slack, telemetry and AI-assisted workflows.
- Connects factory, field, customer and machine-fleet signals into prioritized work, earlier risk detection, cleaner handoffs, standard work, training and accountability.
- Works in a software-enabled robotics and machine-vision environment with approximately 1,000 fielded robots informing support and operating feedback loops.

Amazon2014-2018

Operations Management / Site Leader

- Led launch and execution for Amazon Prime Pittsburgh in a 24/7 customer-backward environment supporting approximately five million second-day orders annually.
- Built leadership routines, labor planning, throughput visibility, escalation paths, standard work and operating mechanisms.
- Applied Lean and Gemba practices across safety, quality, throughput, customer experience and team engagement.

Compunetics2000-2013

Director of Operations and Engineering Management

- Led engineering, manufacturing, quality, customer delivery and complex technical programs in advanced electronics and high-reliability environments.
- Built quality systems, standard work, root-cause practices, performance measures and process controls.
- Collaborated with high-consequence customers and partners including DoD, CERN, Intel and AMD; published industry articles, delivered technical talks and participated in the HyperTransport Consortium.

ROLE-ALIGNED CAPABILITIES

24/7 operating cadence

Safety and authority

Reliability mechanisms

Technical operations

Customer commitments

Vendor accountability

OPEX / CAPEX decision support

Root cause and standard work

Signals, telemetry and escalation

Team development

CANDIDATE THESIS

Parallel growth with reliability.

New capacity earns operating value when people, plant, procedure, partners and customer commitments can carry the load together.

LOCATION

Currently based in Pittsburgh and actively relocating to the Tampa Bay area.

Scaled operations 24/7 launch, cadence, escalation and customer-backward execution.	High reliability Engineering, manufacturing, quality and process-control depth.	Regulated work Explicit authority, chain of custody and verified safety performance.	Modern operations Telemetry, ERP, workflow integration and AI tied to decisions.

ADDITIONAL EXPERIENCE

DudeWorth

2017-Present

Founder / AI and Automation Advisor

- Develops readiness and opportunity frameworks assessing value, feasibility, data readiness, governance, adoption burden, reuse and time-to-value.
- Designs agentic workflow patterns using structured context, retrieval, human judgment, escalation, decision records, evaluation and governance rails.
- Advises on operations, logistics technology, warehouse automation, AMRs, ASRS, cobots, transportation systems and workflow design.

ZeusVu

2018-2022

Chief Pilot, Autonomous Systems and Aerial Data Operations

- Led regulated drone operations across medical, energy, logistics, real-estate and restricted-airspace contexts with a 100% safety record and no FAA incidents.
- Designed medical drone delivery and chain-of-custody concepts connecting technology, risk, stakeholders and governed execution.

Cardinal Building Products

2021-2023

Regional Director

- Built the company's first remote regional operation.
- Modernized distributed customer, CRM, commercial, fulfillment, logistics, digital marketing and online-buying workflows.

Enviro Social Capital

2014-2017

Chairman of the Board

- Co-founded and led a public-private impact initiative focused on sustainable infrastructure, green finance and civic transformation.
- Helped shape and evaluate a \$200 million Social Impact Bond feasibility concept for Pittsburgh sewage and green-infrastructure improvement.

IEEE

2012-2016

CMPT and EDS Pittsburgh Chapter Chair

- Led regional technology programming connecting industry, academia, STEM outreach, electronics, manufacturing and emerging technology.

EDUCATION

University of Pittsburgh

Bachelor of Science

Academic grounding includes materials science, physical chemistry and biology-related studies.

CREDENTIALS

Google AI Essentials

IBM Enterprise Design Thinking Practitioner

Six Sigma Certification

OSHA 10

TECHNICAL TOOLKIT

Agentic AI · LLM workflows · RAG · human-in-the-loop design · Python · SQL · JavaScript · TensorFlow · Tableau · Odoo · Jira · Confluence · HubSpot · Slack · GIS/mapping

TRANSFERABILITY BOUNDARY

Does not claim direct colocation tenure or unverified Tier, CFM, CEM or PE credentials. Offers adjacent high-consequence operating evidence and respect for experienced data-center technical authority.

Operating posture: read the live system first; make authority and evidence explicit; standardize only what improves safety, reliability, customer trust and learning.
